

# Summary of the JAMA/JAPIA Standard Material Datasheet version upgrade (Ver.2.32)

- This document is issued to supply information for JAMA/JAPIA Standard Material Datasheet version upgrade items. (Ver.2.32)  
[Release date : NOV 1, 2015]
- The upgraded JAMA/JAPIA Standard Material Datasheet (Ver.2.32) can be downloaded from the JAPIA website (<http://www.japia.or.jp/>) after NOV 2015.
- The JAMA/JAPIA Standard Material Datasheet may be upgraded furthermore in the future.

November 1, 2015

Japan Auto Parts Industries Association  
Product Environmental Committee

## &lt; List of upgrade items in Ver.2.32 &gt;

File	Upgrade item	Upgrade content	Details
I. Data Input Form	1. Cover sheet	-“Version No.” and “Date” have been revised. -“Explanation of upgrade” has been added.	Page 3
	2. Password	The password has been updated. (Please confirm the new one to your requester.)	(n/a)
	3. Check specification	For harmonization with IMDS, a check has been changed. [Object item] Material Marking (Item No. 32)	Page 4
II. External list	4. Material List MAT	- Revised contents of JIS have been reflected. - Revised IMDS committee materials have been reflected. - Misdeshcriptions have been corrected. - Some Materials have been added by user demands - Refer “Explanation of Material List”.	Page 5
	5. Substance list IMDS_SUB	-IMDS BSL changes (addition, revised and deletion) have been reflected. -Substance names (Japanese) also have been revised accordingly. -The additional SVHCs of REACH on June 15, 2015 have been reflected.	Page 6
	6. GADSL Classification IMDS SUB	-“External list” was updated for consistency with the latest GADSL(2015 Version 1.3)	(n/a)

# I. Upgrade items for Data input form

## 1. Cover sheet

**JAMA/JAPIA Standard Material Datasheet** Ver.2.32  
November 1, 2015

Revision of JAMA/JAPIA Standard Material Datasheet is implemented as follows.

<November 1, 2015>

- JAMA and JAPIA issued the revised JAMA Standard Material Datasheet (Ver.2.32) for consistency with IMDS and for improvement of user convenience.  
Please refer to the document in JAPIA website for detail information of revision.
- "External list" was updated for consistency with the latest GADSL(2015 GADSL Version 1.3)
- "External list" was updated, because SVHC of EU-REACH regulation was added on June 15th, 2015.

<June 1, 2015>

- JAMA and JAPIA issued the revised JAMA Standard Material Datasheet (Ver.2.31) for consistency with IMDS  
Please refer to the document in JAPIA website for detail information of revision.
- "External list" was updated for consistency with the latest GADSL(2015 GADSL Version 1.0)
- "External list" was updated, because SVHC of EU-REACH regulation was added on December 17th, 2014.

<October 1, 2014>

- JAMA and JAPIA issued the revised JAMA Standard Material Datasheet (Ver.2.30) for consistency with IMDS and for improvement of user convenience.  
Please refer to the document in JAPIA website for detail information of revision.
- "External list" was updated for consistency with the latest GADSL(2014 GADSL Version 1.2)
- "External list" was updated, because SVHC of EU-REACH regulation was added on June 16th, 2014.

<June 1, 2014>

- JAMA and JAPIA issued the revised JAMA Standard Material Datasheet (Ver.2.21) for consistency with IMDS  
Please refer to the document in JAPIA website for detail information of revision.
- "External list" was updated for consistency with the latest GADSL(2014 GADSL Version 1.1)
- "External list" was updated, because SVHC of EU-REACH regulation was added on December 16th, 2013.

<October 1, 2013>

- JAMA and JAPIA issued the revised JAMA Standard Material Datasheet (Ver.2.20) for consistency with IMDS and for improvement of user convenience.  
Please refer to the document in JAPIA website for detail information of revision.
- "External list" was updated, because SVHC of EU-REACH regulation was added on June 20th, 2013.

(The rest is omitted.)

<Change>  
Version number and  
Date have been revised.

<Change>  
Summary of Revision  
has been added.

### 3. Check specification

For harmonization with IMDS, a check JAMA sheet's check specification has been changed. (The date of IMDS change is 19<sup>th</sup> November, 2015.)

Changes in the check condition of the Item “Polymeric Parts Marking” in IMDS

- Range of VDA classification to be checked is changed (only 5.1.x, 5.3 -> 5.x)
- Check of the 25g part weight threshold is removed\*

\*: There is no effect for JAMA Sheet because this '25g' check has not been equipped.

#### □ Change in the check condition of JAMA Sheet

##### Before

- VDA classification is 5.1.x and over 100g and not yet answered : Error
- VDA classification is 5.3 and over 200g and not yet answered : Error

##### After

Harmonizing with new IMDS check conditions (Changed parts are shown in **Red**)

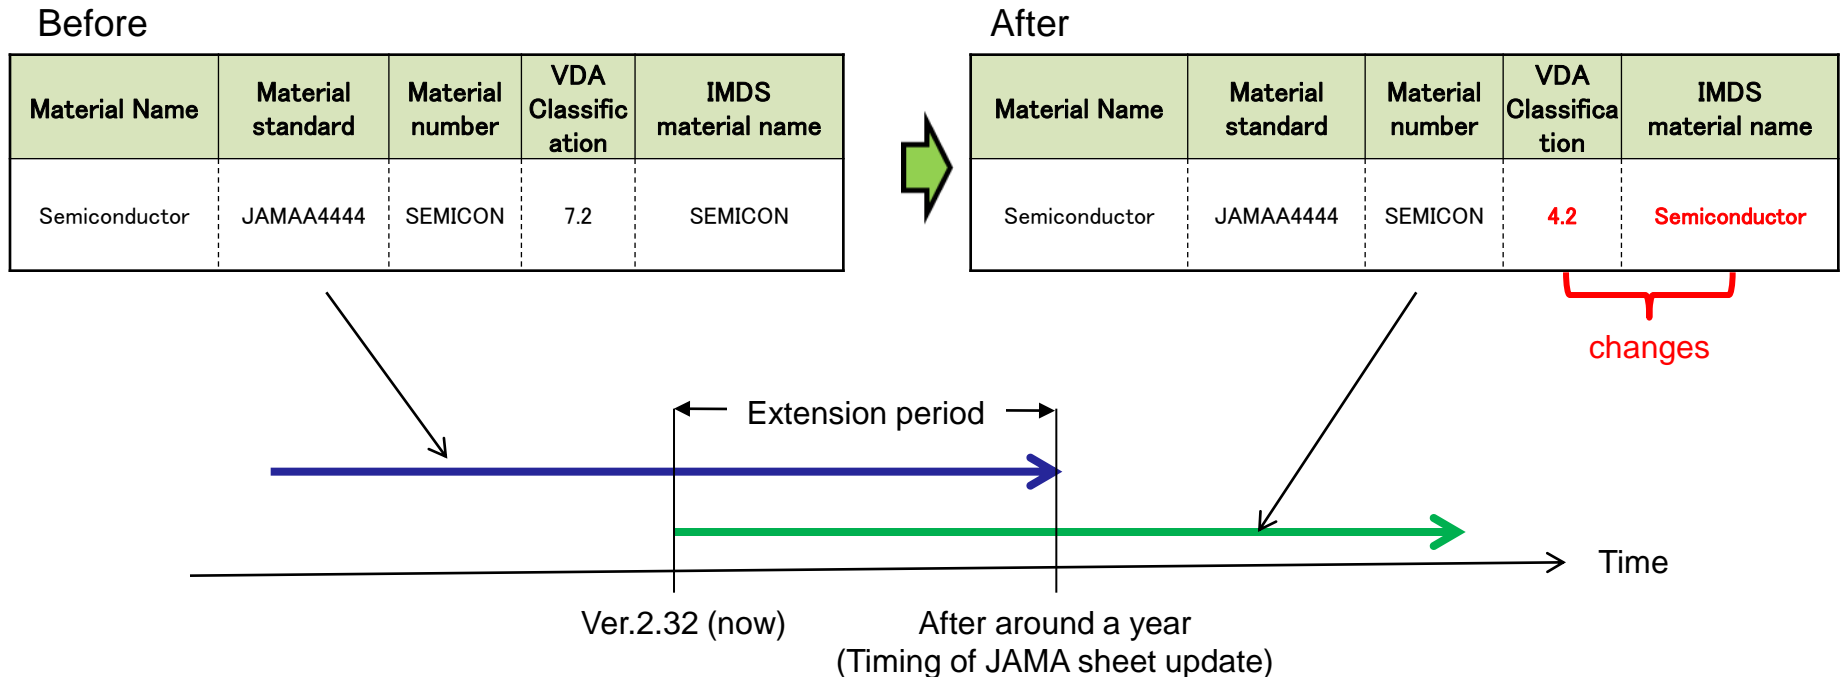

- VDA classification is 5.1.x **or 5.4.x** and over 100g and not yet answered :Error
- VDA classification is **5.2 or 5.3** and over 200g and not yet answered :Error

After November 1<sup>st</sup>, to create MDSs with ver.2.32 is recommended independent on IMDS release date (November 19<sup>th</sup>) is recommended in order to reduce errors at upload timing to IMDS.

## II. Update items for External list

### 4. Material list

A part of Material description below is changed to harmonize with IMDS recommendation. The old description of the material will be removed from the external list after around a year as extension period. Then the old description will be treated as error in the check.

For the other change points, refer “Explanation of Material List”.

## II. External list

### 5. Substance list

On and after the last upgrade, BPR related substances have been added. Please note that special statements for treating these substances are written in the GADSL reference list.

Allocation of GADSL classifications for "Biocidal coatings / biocidal additives, selected":

- Allowed to use: "D",
- Prohibited in one or more purposes (Product Type): "D/P"

In JAMA/JAPIA standard material data sheet shows even these substance names as "Brown for D, Purple for D/P and Red for P" simply according to GADSL classification. These substances may be treated as exemption depending on conditions.

## (Supplemental remarks)

### Data compatibilities between Old versions and Ver. 2.32

#### (1) External List

##### Not compatible

Users must use the external list Ver.2.32.

The external list of Ver. 2.31 or older cannot be used because some of functions, such as material selecting function, doesn't work properly.

#### (2) CSV file

##### Compatible (Not compatible under a specified condition)

The JAMA Standard Material Datasheet can import CSV files created by older version sheet (From Ver. 2.01 to Ver. 2.31)

However some errors may occur because of the modification of materials and substances in the new external list.

In case of errors, the data has to be corrected.
